

In order to access the Powernote Training Guide do the following:

1. Copy this URL:

[http://www.eushc.org/eemr/help/PC\\_2007/PC\\_Documentation/](http://www.eushc.org/eemr/help/PC_2007/PC_Documentation/)

Do not click on it. In order to get to the link, you must access the Internet through EeMR.

2. Open VDT (Virtual Desktop).

3. Click on the Internet icon.

You must access the internet through EeMR.

If you attempt to access this website without going through EeMR, it won't work.

4. Once in the internet, you should be at the home page for EHC ([www.eushc.org](http://www.eushc.org))

5. Click on the place you type in your internet destinations/URLs.

6. Paste the URL above and click on it.

7. This will take you to the Powerchart help/information clearinghouse. There are many EeMR resources here that you can use.

8. In the middle of the central column is the "Powernote Training Guide."

Best regards,

Eddie Needham, MD
